### Remarks.

Above you will find a full statement of all school matters as transacted for you by the superintending school committee and superintendent of schools.

An itemized account of fuel, janitor service, repairs and supplies will be found in the list of orders drawn by the selectmen.

I think that all of the schools in town have advanced as much as could be expected, and I think we were very fortunate in getting as good a corps of teachers as we did for the wages we paid. There was more money raised this year than last, but there were less scholars in town than last year so we did not receive as much from the State, but we were able to have two more weeks of school by not having any assistant teacher at Webb's Mills for the fall and winter terms.

You will see by my report that there are several schools in town that do not maintain an average, and I would recommend that an article be put in the warrant to see what action the town will take in regard to the matter.

The schools have been broken up quite a good deal by whooping cough and measles which has made the average much less than it otherwise would have been, but there are some districts in town that haven't enough scholars between five and fifteen years of age to maintain an average of eight.

I would suggest that the superintending school committee visit the schools much oftener than they do, as I think it would give them a better understanding of the requirements of the schools, aid them in selecting teachers, and also in quelling any disturbances that might arise in the schools.

I would also suggest that the parents of the pupils in the several districts of this town should visit the school that their pupils attend at least twice in each term, as it would give them a greater advantage to see the progress made by their pupils, and it would also encourage the teachers to pursue their labors with greater diligence, and I think the pupils would do better work and make far greater advancement if they saw that their parents were interested enough in their studies to visit their school room.

Let me say in conclusion that the school committee, parents and teachers have my sincere thanks for co-operation and assistance during the school year of 1906.

Respectfully submitted,

L. S. MAINES, *Supt. of Schools.*

*Statement of Settlement*

with town of Limington

Portland, Sept. 4, 1907.

G. H. Hanscom, Casco, Me.

Dear Sir :—

Limington concluded, as we thought, to settle, and I now send you what is coming to your town

In this case I have had to bring three suits, one against Standish and two against Limington. These have covered a long period of time and have taken a great deal of work and involved much responsibility, a slight mistake would have lost the whole

I have paid out from time to time

8 70	to officers for serving the three suits
1 80	to court for entering writs
84 13	to officers for summoning witnesses and their fees
5 00	to Geo. E. Lane for work at Hollis
3 00	to J. G. Rudlon for looking up records
20 50	for printing for law court
10 55	for fares, horses etc. as per bill sent to Hancock

---

133 68

25 00 cash received from Hancock

---

108 68

500 00 for services

---

608 68

100 00 discount which I ought not to make

---

508 68 which amount I deduct

I have received from the first suit \$601 65

I " " " " 2nd " 336 75

---

508 68

---

\$429 72

for which I enclose check payable to your treasurer

Yours truly

W. C. Whelden.

## Remarks

---

We were obliged by law, and did, during the spring and fall terms, convey the pupils from districts 1 to 3, 4 to 5 and 7 to 6 but this was entirely unsatisfactory, especially so to the parents, nor were your school officials enough devoid of feeling, and as we think good judgment, to expose the little ones to the dangers of such weather and conditions as they are sure to meet during the winter term, and so, anticipating your approval, we re-established the schools in districts, 1, 4 and 7 which gave to all alike, just and rightful opportunities to the privileges and expenditures. The matter will be in your hands under an article in the warrant and we ask you to give it your earnest attention.

To some of the parents we want to say in all kindness, that very harmful results invariably follow indulgencies in petty differences of opinion, you must well know that the teacher in the school room has far better opportunity to observe the conduct and judge of the needs of the pupil than the parent at home, and so is it not clearly a duty to yourself to your child, to the teacher and to the community in which you live, to give her at all times your earnest and cordial assistance, if the home and the school, as they should be are in perfect understanding and harmony, the best results are most certain to obtain, otherwise, dissapointment and almost an entire waste of time and money. It is not possible for any teacher to please everybody, neither is everybody always just satisfied with us, so after all we are all about alike, at our very best imperfect and so when we feel like finding fault with the teacher would it not be more in keeping with good judgement to stop and ask our own selves a few pertinent questions, and if we heed the answer it will surely work to the advantage of all concerned. The schools have for their task the making of good citizens and it is well for us to be careful.

I desire to express my appreciation for the many expressions of kindness extended to me during the year, it has

been a pleasure for me to do what was in my power toward a contribution to the efforts of the teachers and for the kindly co-operation of superintending committee and your manifest desire for a higher standard of schools. I thank you most sincerely, and now as a word of caution, I beseech you all as citizens, never permit the schools to suffer in the slightest degree, for they are the very foundation of good citizenship and government.

In conclusion I want to congratulate the citizens upon the possession among our own people, of teachers highly qualified and well fitted for instructors, and thank them for their devoted services, and I urge upon you to ever keep in mind the great responsibility which you are under as teacher it is not all of your duties simply to impart book knowledge, the main idea in education is character building, and this should receive much of your attention. I sincerely hope these remarks will be received in the same kindly spirit in which they are made, for they are not intended as a reflection in any degree upon any particular person, but rather as an effort to bring about certain desirable changes.

Most respectfully,

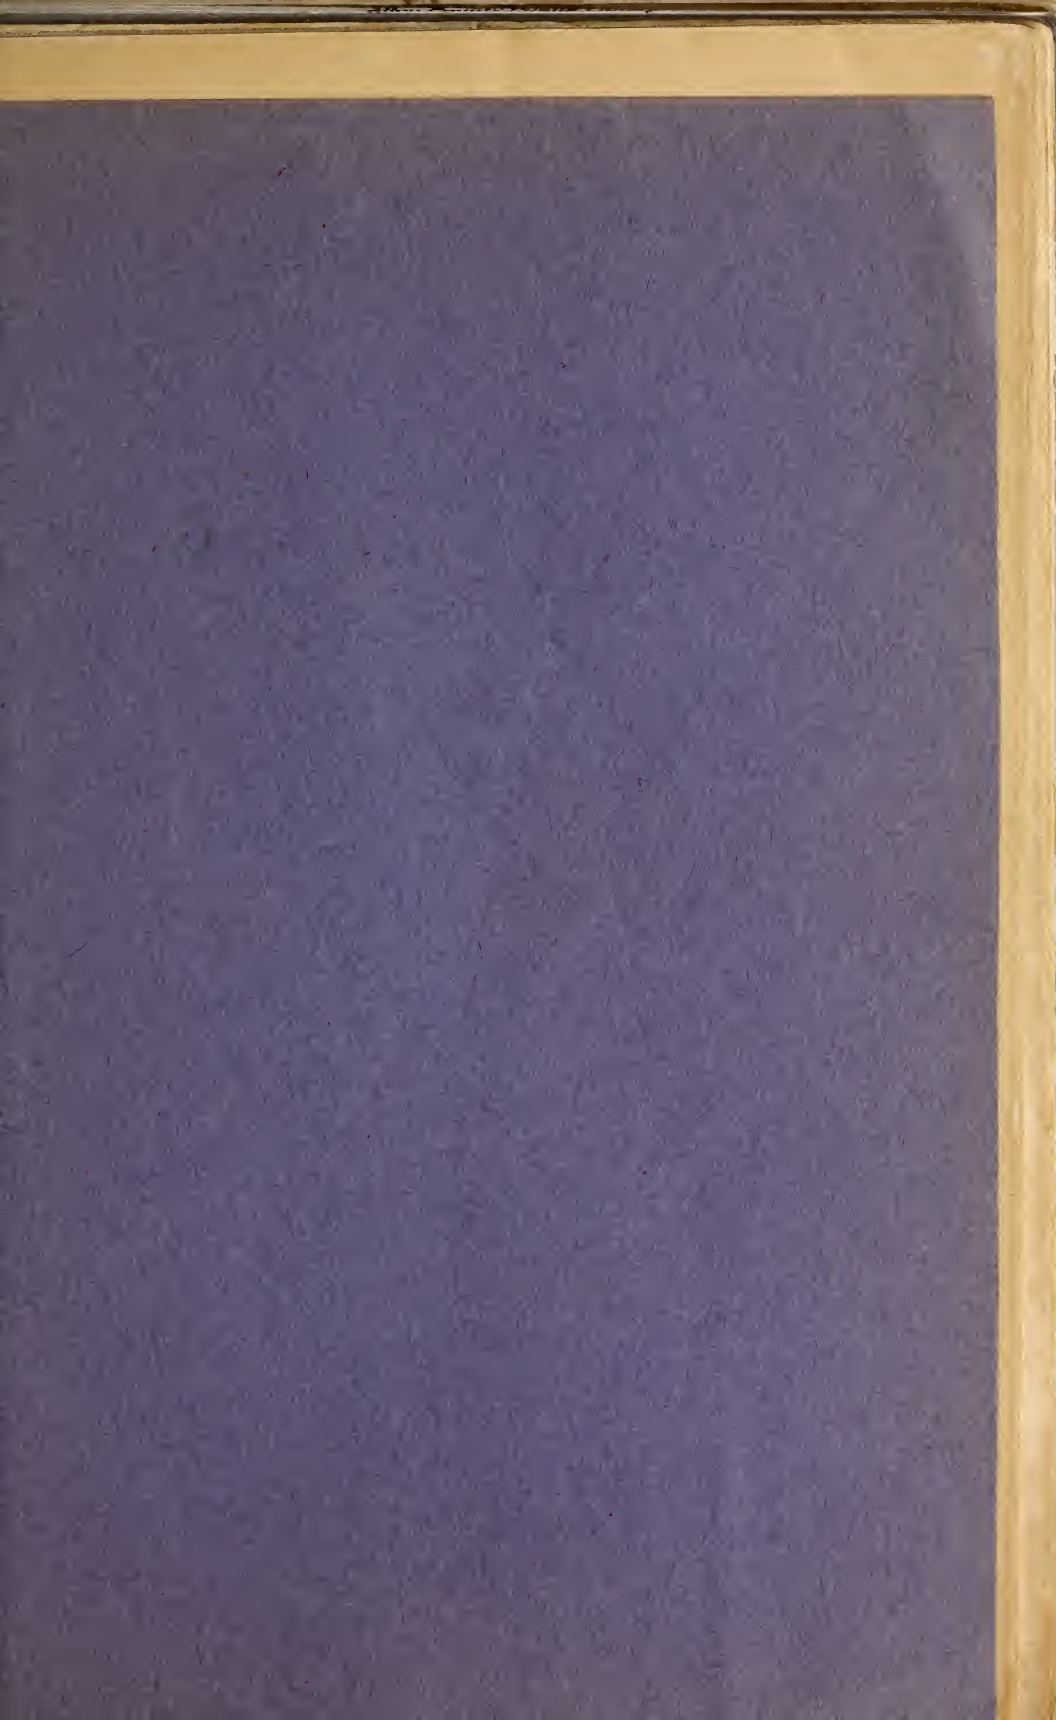

G. B. MAYBERRY. Supt. of Schools

**REMARKS.**

I think we have been fortunate in securing so good a corps of teachers as we have for the prices we pay, as most other towns about us pay higher wages. The schools have maintained a high average of attendance for the past year, and as a whole, have done excellent work. Forty-four scholars were not absent one-half day during the summer schools. Thirty-one were not absent one-half day during the fall schools. Thirty were not absent one-half day during the winter schools, and Violet Watkins, Charlie G. Lord, Catherine Bennett, Harold Bennett, Alton Strout, Everett Strout, Allie Tenney and Hazel Tenney were not absent one-half day during the school year. I think great praise is due those pupils who have not missed one-half day for the school year, and hope that the list next year may be much larger.

We have retained the same teachers for the school year in two districts and think it advisable when you secure a good teacher that they remain in the same school, if possible, for at least one year. Many of the school books were nearly useless at the beginning of the year, so that I was unable to furnish the scholars with books as promptly as I would have liked.

Have had to overdraw the amount appropriated by the town, and think the town should be careful to raise sufficient money to buy school books, as it is no use for a scholar to attend school without he can have what books he needs. It takes about \$25.00 per year to purchase writing books and spelling blanks.

Have not had to pay out much for repairs this year but next year your superintendent will have to use quite a little money, as the schoolhouse in district No. 1 needs quite a lot of repairing. The schoolhouse in district No. 2 will have to have one side shingled, and there will be several other minor repairs to be made on the other schoolhouses in town.

Five schools have not maintained an average attendance of eight scholars for the year. An article will be inserted in the town warrant to see if the town will maintain schools in these several districts. I would suggest that we have schools in all the districts, as part of them will have more scholars next year than there were this and conveying the scholars from one district to another seems wholly unsatisfactory to the parents.

I wish to thank the S. S. Committee, parents and teachers, for the kindness shown me and help rendered me while discharging my official duty.

L. H. POORE, Supt. of Schools.

Casco, Me., Feb. 20, 1908.

## REMARKS

The foregoing is a full and complete statement of the school work for the past year. As to the amount paid for fuel, janitors, repairs, etc., you can learn to whom and how much has been paid by looking at the list of orders drawn by the Selectmen.

I am glad to note that many of the scholars seem to take more interest in their school work, not only in attendance, but in the amount of work performed and the thoroughness with which it is done. Think both pupils and teachers have shown more interest in the school work, and have labored faithfully for the advancement of the schools.

On account of much sickness, the attendance was not so good during the summer and winter terms as it otherwise would have been. However, there were thirty-four pupils who did not miss one-half day during the summer terms of school, thirty who did not miss during fall terms of school, twenty-five who did not miss during winter terms, and Violet M. Watkins, Wavelet A. Watkins, Beatrice H. Mitchell, Fred C. Hanseom, Bessie M. Jewett, Mildred Shaw, and Alton Strout have not missed one-half day for the school year. And I want to say that Violet Watkins and Alton Strout have not missed one-half day for the two years that I have been your Superintendent. Some of the schools have not maintained an average attendance sufficient to entitle them to schools the coming year, without a vote of the town.

An article will be inserted in the warrant for town meeting to see if the town will vote to maintain school in these districts.

As required by law, and acting under the provisions of

Chapter 73 of the Public Laws of 1909, I have caused the pupils of the several schools to be examined by their respective teachers for defective hearing and defective eyesight, with the results shown in the statistical table.

I wish to extend my thanks to the Superintending School Committee and Truant Officer for their assistance, and also to teachers, parents and pupils for the kindness shown me while attending to my official duty.

L. H. POORE, *Supt. of Schools.*

## REMARKS.

The foregoing is a full and complete statement of all bills paid for the support of the town schools during the past year. It will be seen by this report that a large amount of money has been paid for repairs. The schoolhouse No. 7, on Mayberry Hill was in a very bad condition and almost unfit for use. It had to be partly plastered, white-washed, painted inside, the seats varnished, also was furnished with new windows, curtains, new doors and hooks for clothing. This house is now one of the best in town and with proper care should need no further repairs for several years.

A new stove and stove-pipe was furnished school No. 4, and none too soon as the old stove had been in use many years, was about ready to fall to pieces and did so when removed from the school room.

The schoolhouse at South Casco is in very bad shape and should have extensive repairs before the next year's school.

The schoolhouse at Cook's Mills needs new seats, new doors, new steps and to be shingled.

Was sorry to learn of the fire that caused the destruction of the schoolhouse at Casco Village. Although this was a large house, in good repair outside it was the most ill-contrived and poorest school room in the town. I hope the citizens will soon replace it with a nice up-to-date schoolhouse with more modern conveniences.

The progress made by the pupils in the town schools during the last year has been very satisfactory and the attendance has been better than former years.

The summer terms of school, forty-five were not absent one-half day, fall terms, thirty-six were not absent, winter terms, thirty-four were not absent and the following scholars were not absent one-half day for the school year: Eulalie M. Brackett, Catherine E. Bennett, Harold G. Bennett, Julia B. Brooks, Frances C. Brooks, Miles Brooks, Charles Comstock, Frances A. Hall, Fred C.

Hanscome, Lawrence G. Hanscome, Jessie V. Lombard, Milton J. Lord, Leland W. Morse, Stanley Nutting, Mildred P. Shaw, Wavelet A. Watkins, Violet M. Watkins and Alton Strout have not missed one-half day for the three years I have been superintendent, only the last week of the winter term, Alton had the mumps and was unable to attend.

If the parents would take the interest that some of the pupils do we might get much better results from the school money we expend.

I wish the parents would take time to visit the schools that they might observe for themselves the amount of work done by the scholars. Do not depend wholly on the reports brought home by the scholars, or talk made by other parties who have not visited the school, for in so doing one frequently gets entirely wrong impressions and the teacher is often blamed without just cause.

I have highly appreciated the assistance rendered by the School Committee and wish to extend my thanks to teachers, parents and pupils for the kind treatment I have received while in the discharge of my official duties.

Respectfully submitted,

L. H. POORE, *Supt. of Schools.*

## COURSE OF STUDY.

*First Year.* Primer. Numbers to 20.

*Second Year.* 1st Reader. First Lessons in Number, Lessons 15-30-40.

*Third Year.* 2nd Reader. First Lessons in Number, Lessons 52-61. finish.

*Fourth Year.* 3rd Reader. Brief Course Arithmetic,

Mult., Long Div., Add. Fractions. Small Geography, pages 26-45-62.

*Fifth Year.* 4th Reader. Brief Course Arith., Decimals, Percentage, finish. Small Geography, So. America, Asia, finish. Mother Tongue, Book I, pages 42-85-130.

*Sixth Year.* 5th Reader. Complete Arith., Factors, Decimals, Measurements (omit Metric Sys.) Large Geog., N. America, Mid. Atlantic States, Western States. Mother Tongue, Book 1, pages 176-214-251. Small History during the year. "How to Keep Well," Chaps. VII-X-XIII.

*Seventh Year.* Reading. Arith., Exact Interest, Ratio and Proportion, Exam. Questions. Geog., Europe, Asia, finish. Mother Tongue, finish, Patterson's Grammar, pages 46-106. "How to Keep Well, finish; Our Bodies, Chaps. IV-VII.

*Eighth Year.* Reading. Arith., Appendix, finish, review, taking Metric System. Grammar, pages 138-189-234. General review of Geography in third term. History, finish during the year. Our bodies, Chaps. X-XII, finish.

Writing, Spelling and Observation Lessons throughout the course of the eight years; also English Composition and Map Drawing as early as practicable.

Especial attention is called to the Report Book which contains all the particulars of the child's school life necessary to bring the parent, pupil and teacher into touch with one another.

The foregoing Course of Study is intended to qualify for High School. An average rank of 75 per cent. for the year in all subjects, including deportment, entitles to promotion. Absence from recitation is marked zero, unless the work is made up.

With our new High School Room and ambitious pupils enough for a good start, it would seem that the time has come for Casco to step up higher and offer *all* her children a good education.

Respectfully submitted,

J. A. NICHOLS, *Supt. of Schools.*

## REPORT OF SUPERINTENDENT OF SCHOOLS

I respectfully submit the following report for the school year 1912-13, with the hope that it may merit and receive the careful and thoughtful consideration of all citizens interested in the welfare of our schools.

Your Superintendent has to some extent at least felt the responsibility of his work and has endeavored to labor for the best interests of the schools committed to his supervision. While some of the schools have done better work than others and some terms have been more successful than others, I believe that it is true that the general progress has been exceptionally good.

It may not be well in this report to mention whether one school more than another has excelled in accomplishing the best results, for it is easy to believe that every teacher takes a personal interest in this matter and that all endeavor to do their very best to make their school among the first. In this connection it gives me pleasure to refer to the good work that has been done in schools 1, 4 and 5 during the whole year and also to the improved conditions in Nos. 6 and 7 during the winter term.

Soon after I entered upon my official duties my attention was called to the condition of the school buildings and their surroundings at So. Casco. The seats were badly broken, the ceiling was falling down, the walls soiled and dingy and the general aspect about as cheerless as can be imagined. During the summer vacation quite extensive repairs and other improvements were made and now you have in No. 1 one of the pleasantest and best lighted of all the school-rooms in the whole town. This has been accomplished at a greater expense than had been anticipated, but I am very sure that if you could witness the increased interest of pupils in their work and could know of the rapid advancement that all have made in their studies, you would decide that the money had been well expended.

No pupils can do their best work under unfavorable con-

ditions. The old seats were replaced by new and those seats that were unbroken were again put into use at Cook's Mills, where many of the seats were in very bad condition. I trust that these improvements will receive your approval and that you will decide that all school buildings in the town ought to be made as pleasant and sanitary as possible.

### HIGH SCHOOL.

At the beginning of the school year a High School was organized according to the wish of the town as expressed in the annual meeting in March. The school has been visited by the State Inspector and has received his approval as a Standard School of Grade B, the highest grade to which we can attain, while we employ only one teacher. In order to maintain a school of Grade B the State requires that the town make an annual appropriation of at least five hundred dollars (\$500), but will reimburse the town to the amount of two-thirds of the sum paid for instruction, not to exceed five hundred dollars (\$500) in any one year.

At the opening we were exceedingly fortunate in securing the services of Mr. Oliver C. Stevens, who came to us with the highest recommendations from school and church officials. Under the instruction of a principal of liberal education whose methods are modern and thorough and with students fully alive to their responsibilities and determined to improve their opportunities, this school is a credit to the town. It fills its proper sphere, if it in the best possible manner fits its students for the activities of life.

### COURSE OF STUDY.

One course of study only was necessary for the approval of the State Superintendent, but that one course must have contained the College Preparatory work. Realizing that many of our pupils would not desire to study the classics, I considered it advisable to arrange two courses that

should overlap each other, one a Classical Course giving Latin four years and French or German three years and a second English Course, offering commercial branches if desired, and allowing pupils some freedom of choice. Several have taken advantage of the College Preparatory work.

### APPROVED COURSES OF STUDY.

#### English Course.

*First Year.* English, History, Algebra, Physical Geography  $\frac{1}{2}$  year, Commercial Geography  $\frac{1}{2}$  year.

*Second Year.* English, Geometry, French or German, Book-keeping, Physiology  $\frac{1}{2}$  year, Botany  $\frac{1}{2}$  year.

*Third Year.* English, Physics, Adv. Algebra and Geometry, French or German, Commercial Arithmetic.

*Fourth Year.* English, American History and Civics, Chemistry, French or German, Geology or Astronomy  $\frac{1}{2}$  year, Political Economy  $\frac{1}{2}$  year.

#### Classical Course.

*First Year.* English, History, Algebra, Latin.

*Second Year.* English, Latin, Geometry, French or German or Greek.

*Third Year.* English, Latin, History, Algebra, French or German or Greek.

*Fourth Year.* English, Latin, Geometry, American History and Civics, Science, Greek or French or German, Reviews.

These courses of study are only tentative and subject to change on approval of the State Superintendent.

I feel that we should not be satisfied with anything less than a standard school and a school where the highest quality of work is done. Before application for approval for another year is made a laboratory equipment will be necessary, for which a small appropriation will be asked.

While the home school can not be maintained except at considerable expense, I sincerely believe that the ultimate aim of an educational system, paid for by the town should

tend to the uplifting of the whole community, and that the opportunity for all should be equal, and that as far as the town is able that that opportunity should be the best. I sincerely believe, too, that the future years will see a steady and healthy growth of the town and that its school system will be made the binding chain which shall hold the coming generations together making loyal citizens for *our own town*.

In conclusion, I would merely refer to the need of the parents becoming conversant with the actual work of the school room through more frequent visitation; to the need of more regular home study by the pupil, not only for his own advancement, but in order that the school may rank with contiguous schools; and to the need of still more careful grading of the larger schools, to make it possible for the teacher to give more time to oral instruction.

It gives me great pleasure to extend my heartfelt thanks to those who have assisted, counseled and sustained me in the year just closing.

Respectfully,

LESLIE C. JEWELL.
